DISCUSSION

The Crow & Sons Landfill site is a 78 to 129 acre permitted landfill. The site was permitted to accept municipal and non-hazardous waste. There is no evidence of the facility ever accepting CERCLA hazardous waste.

Due to the lack of a hazardous waste at the site, the Crow & Sons Landfill site does not meet the minimum criteria of a viable candidate for inclusion on the Superfund National Priorities List; therefore, the site is designated a disposition of No Further Remedial Action Planned (NFRAP), and at this time does not warrant further investigation under Superfund.

This site is being referred to the State of Texas for any appropriate action under the state's regulations.
